Dear Sir

**Review of Rating Policy - Response from Belfast Institute**

In response to the proposals I would offer the following comment in relation to section 3.4.

It is clear that there are a significant range of anomalies e.g. the position of St. Mary's University College.

It would be important that equity and consistency is achieved through the review.

If all are excluded from rate exemption then the pressure is on all to use buildings efficiently.

Yours sincerely

**RECEIVED 15 MAR 2005**
